STAT

3. Representatives of the [REDACTED] Telephone Company gave a presentation on the Dimension 600 system and its potential use as a replacement for the Centrex switch currently in use [REDACTED]. The presentation was well received. Cost comparison figures will be furnished by [REDACTED]. Discussions with the Telephone Branch/DND surfaced several papers which will directly impact on any equipment update decisions made [REDACTED]. Because of the rapidly advancing obsolescence of our electromechanical PBX, Centrex switchboard; the unavailability of add-on service; and the rapidly escalating rates being charged by the telephone company--obviously an effective lever--we are planning to convert to a Dimension 600 system in 1984. We are advised that such a conversion will result in long-term savings. [REDACTED]
